

HB 930 -- PROXY VOTING

SPONSOR: Houx

This bill clarifies the proxy voting rules for political party committees charged with nominating candidates in case of vacancies in certain offices. The state political party committees may allow or disallow proxy voting for all types of political party committees under their control. If the state political party committees do not act, then individual political party committees may choose their own rules on proxy voting. If no rules are selected governing a particular political party committee, then no proxy voting is allowed.
